Franklin Tote Bag

A special collaboration with our friends at J. Stark,
handcrafted in Charleston, SC.

[Explore the Franklin Tote Bag](#)

Built for your everyday

The Franklin is the perfect everyday tote and built to last. It's the type of bag that your grandkids will find someday – worn in, well loved, and ready for another generation of service.

Pockets for days

Its 5 pockets of varying sizes give you a place to store your work or travel essentials. And the leather straps are sized perfectly to carry on your shoulder or in your hand.

What peers have to say about the Franklin Tote.

Each bag is meticulously crafted from the highest quality materials around and these reviews tell the story.

★★★★★

The Franklin Tote is the Mary Poppins bag of the modern world—except instead of magic, it's powered by impeccable design. Spacious enough to hold everything from your laptop to your “just in case” snacks, but stylish enough to make you look like you have your life together. It's basically saying, “I’m organized, but make it fashion.”

— Monica Geller

★★★★★

The Franklin Tote is like a black hole—if black holes were classy and held everything you need for the day. It fits my laptop, notebook, charger, and somehow, my existential dread about meetings. Plus, it looks so good, people actually think I have my act together. Highly recommend for stylish chaos control!

— Phoebe Buffay

Why? Because we want to start a conversation about principled winemaking, and why wine costs what it does. But we only made 200 cases, and you have first dibs. So get Alit-'cause we ain't got a lot.

“ Was skeptical at first, but I have to say it has been great to use so far and is now part of my daily workout. Well built and sturdy, the suction cup is strong and fits on my laminate flooring just fine. 10/10 from me ”

Don't just take our word for it:

Needed something small for my office for quick light workouts and this fit the bill! Works great for some light drilling when I want something to punch instead of shadow boxing.

Charlotte V.

Very good product. Recommended for the viewers, it's been used for the last 4 months Still in perfect condition. No issues and no problem at all so far. Assembling is easy and very enjoyable for adults as well.

Aiden B.

Took me 5 minutes to assemble it. The instructions were easy to follow. The stand is sturdy and the bag is well made.
